ELECTION ADDRESS

Environment and Taxation

change that works for you

BUILDING A FAIRER BRITAIN

Liberal Democrats working to make tax fairer for all

We've made it clear how our Party will change Britain. Under the Liberal Democrats, no-one will pay tax on the first £10,000 they earn. That's the most fundamental change to the tax system for decades. We will give every child the fair start they deserve, by reducing class sizes and increasing one-to-one tuition in our schools.

We'll rebalance the economy so that Britain is no longer just "betting on things", but Britain starts building things again.

And we will build a clean, open, fair politics.

Things don't have to be the way they are. The coming election is a chance to get fairness and to get change.

Almost 1 in 4 voters chose the Liberal Democrats at the last election. If that increased to 1 in 3, we could lead the next government. That is what we can achieve together.

Liberal Democrats - will safeguard the environment for you and your children.

We live in a beautiful country, but we aren't protecting it well enough! Liberal Democrats say "No more 'landfill' - a lot more recycling and a lot less waste". We will seek to protect green field land and build on brownfield sites. We will stop housebuilding in major flood risk areas and crack

down on the big water companies so they waste less water from leakages.

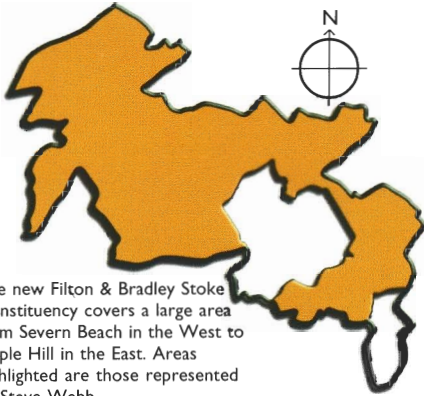

We will scrap Labour's Planning Act and return decision making to local people.

We will seek to keep local Post Offices open and make tax cuts available to save rural shops and pubs. We will regulate supermarkets to ensure fair trade for farmers and a fair price for food. We will use our lasting natural resources like wind and wave power to build a green infrastructure to create jobs that last.

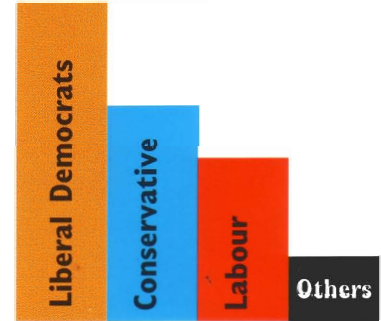

We are the first party to aim for a "carbon neutral Britain."

The 'Filton & Bradley Stoke' constituency is a new one, so there is no record from last time to predict how the vote might turn out. Experts say it is a close '3-way marginal', which means that any of the three main party candidates could win. Each party can draw you a graph to show how they think the vote will be, but the fact is, of course, that it is you, the voter, who will decide which of us will become your MP and go to Parliament. No doubt you will be looking at the party websites and starting to make up your mind. My purpose in writing is to encourage you to vote for the one party that can make the changes that are

needed in Britain today, which is the Liberal Democrats. Be sure to look up our website and find out about the Liberal Democrats and what we stand for; and don't rely on what others may say about our proposals. Get in touch if there are questions still not answered, and judge for yourself.

The new Filton & Bradley Stoke Constituency covers a large area from Severn Beach in the West to Staple Hill in the East. Areas highlighted are those represented by Steve Webb.

With your help, we can win and deliver the fairer Britain that we all want to see!

Peter Tyzack has worked with 'Above & Beyond' Charities, since 2008 when he was sponsored to abseil down the Premier Inn in Bristol. The charity is all about enhancing health care in Bristol and holds a separate fund for each ward or department of the Bristol Hospitals.

The money raised by the abseil was for the new Heart Institute at the BRI, which opened last year. Due to his contribution he has the honour of having his name on the Heart Institute wall.

Peter's fund-raising this year is for the Haematology & Oncology Centre Care appeal, which has a target of £1.6m for the refurbishment of the Centre. They are in the final phase of that with £500,000 left to raise by Autumn this year.

Peter Tyzack will work hard for YOU.

Peter with his children.

The new constituency of 'Filton & Bradley Stoke' needs a strong local champion to be its first MP.

Peter is well known for his hard work as a South Gloucestershire Councillor, and is experienced in working with MPs and government departments to achieve improvements for the area.

Only the Liberal Democrats can deliver the change that is needed, change that will work for you. We offer real solutions to tackle the problems. Vince Cable has ensured that each of our proposals has been properly costed, and the source of the funds identified before it is included in our manifesto.

Peter Tyzack - 'A record of Action, a Promise of More'!

To be on the winning side why not "Team Up With Tyzack".
